***Claim Rejections - 35 USC § 112***

1. Claims 4 and 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 4 should be a single sentence. Further, it is unclear if the second clause is meant to be part of the claim as the rod has been previously set forth, raising issues of double inclusion.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Payson.

Payson shows first and second tubes 10, 12; radial apertures 14; coupler in 12; base portion 12 having a central aperture; arms as the sides of 58 having extensions 18; rod 26; barb 32 (it tilts to engage the edge/barb into the tube); washer 28; and the coupler is U-shaped as the circular shape includes a U-shaped portion.

***Allowable Subject Matter***

4. Claim 9 is allowed.

The details of the spraying device in the environment of the coupling device, in combination with the other claimed elements, are not found in the prior art.

**Conclusion**

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hickson, Berg et al., Slotsve, and Fahy et al. show other extension devices, some for aerosols.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph A. Kaufman whose telephone number is (571) 272-4928. The examiner can normally be reached on Monday-Thursday, 5:30AM-2PM.
